SUMMARY

Final-year Computer Science and Engineering student (CGPA 8.4) seeking Software Engineer and Full Stack Developer roles. Skilled in Java, Python, JavaScript, Spring Boot, React.js, REST APIs and SQL, with project experience building and deploying AI-driven web applications.

EDUCATION

Hirasugar Institute of Technology, Nidasoshi

Aug 2023 – May 2027 (Expected)

B.E. in Computer Science and Engineering | CGPA: 8.4 / 10

TECHNICAL SKILLS

Languages: Java, Python, C, JavaScript, HTML, CSS

Frameworks & Libraries: Spring Boot, JDBC, Node.js, React.js, Streamlit, REST APIs

Databases: MySQL, SQL

Tools: Git, GitHub, VS Code, Jupyter Notebook

Coursework: Data Structures & Algorithms, Operating Systems, Computer Networks, DBMS

PROJECTS

AI-Based Lumbar Spine Disorder Detection

Python, DenseNet, Streamlit

- Built a deep learning system that classifies lumbar MRI scans into four categories: normal spine, disc degeneration, disc herniation and bulging disc.
- Achieved **95% test accuracy** using DenseNet with transfer learning on a limited medical imaging dataset.
- Applied image preprocessing and augmentation to improve model generalisation and reduce overfitting.
- Developed a Streamlit interface returning real-time predictions with confidence scores and visual explanations.

Smart Summarizer — AI-Based Summarization Tool

Python, Google Gemini API

- Developed a web application that generates concise summaries from YouTube videos and PDF documents.
- Automated PDF text extraction and YouTube transcript retrieval using Python modules.
- Integrated the Google Gemini API to produce context-aware summaries from long-form content.
- Cut manual content review time by approximately 60% during testing.

ACHIEVEMENTS & ACTIVITIES

- Second Rank** — Mini Project Exhibition, Hirasugar Institute of Technology.
- Eureka!, IIT Bombay** — Competed in a national-level business plan and startup pitching competition.
- Algo-Rhythm 2.0** — Participated in the UI/UX design competition at Dr. A. D. Shinde College of Engineering.

CERTIFICATIONS

- Generative AI Foundations — AWS
- Artificial Intelligence Fundamentals — IBM
- Python Programming — GeeksforGeeks
- UNIX and Linux OS Fundamentals — Infosys
- HTML5 — Infosys
